How many companies in Europe manufacture solar PV modules?

Today, at least 38 companies are active in Europe manufacturing the equipment and machinery that produces vital steps of the solar PV module supply chain, including cells, ingots, wafers, and polysilicon. EU Clean Industrial Deal: Opportunity for renewables and European manufacturing

Who are Europe's leading solar companies?

1. Enel Green Power (Italy) The Italian energy giant continues to dominate Europe's solar landscape with massive projects across Spain, Italy, and Greece. Their EUR5.2 billion investment in bifacial panel technology with integrated tracking systems positions them at the industry forefront.

Can European solar production underpin resilience?

A new market analysis from SolarPower Europe highlights the potential of European solar production to underpin the resilience of the European sector. SolarPower Europe has published a new report mapping Europe's solar PV module production equipment capacity.

What is European solar engineering?

European Solar Engineering is a company that manufactures solar products. It offers products such as solar panels, solar hot water tanks, pump control units, pools heating systems, solar home heating systems, and more.

Major players in European solar development include Scatec, Lightsource BP, Gresham House, and Aquila Capital. Along with pushing the energy transition forward, these ...

This report lists the top Europe Solar Photovoltaic (PV) companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert ...

The sector's growth is fueled by EU's REPowerEU plan aiming for 600 GW of solar by 2030 - enough to power 200 million homes. But who's leading this charge? Let's unravel the key ...

Our extensive database comprises European companies engaged in the EPC (engineering, procurement and

construction) of renewable energy plants. The list is the result ...

SolarPower Europe has launched a new report about European solar production equipment manufacturers. A new market analysis from SolarPower Europe highlights the ...

This latest report highlights the rapid changes taking place at European manufacturing facilities and across their supply chains. These shifts, while often necessary, ...

Major players in European solar development include Scatec, Lightsource BP, Gresham House, and Aquila Capital. Along with pushing ...

SolarPower Europe has launched a new report about European solar production equipment manufacturers. A new market ...

Since 2010 the management team of Krone Solar has worked in the engineering and construction of many utility scale photovoltaic plants located in Romania, Germany, UK, Albania and Poland.

This report lists the top Europe Solar Photovoltaic (PV) companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and ...

Comprehensive ranking of Europe's top solar companies in 2025. Profiles include market share analysis, technology innovations, and key solar mounting solutions transforming EU renewable ...

This latest report highlights the rapid changes taking place at European manufacturing facilities and across their supply chains. These ...
