-----

This liquid-cooled outdoor energy storage cabinet adopts a modular design, integrates a BMS/EMS intelligent management system, supports multi-machine parallel expansion, and ...

The "all-in-one" design integrates batteries, BMS, liquid cooling system, heat management system, fire protection system, and modular PCS into a ...

Discover how liquid-cooled outdoor energy cabinets enhance green energy solar systems, hybrid power stations, and energy management.

Our outdoor energy storage cabinet is an intelligent integrated management system that provides reliable and efficient energy storage for outdoor applications.

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and minimizing capital expenditures ...

One battery cabinet consisting of 10 packs with integrated air cooling and fire protection to ensure system safety, while the system can be freely expanded according to project requirements.

All-in-one design with liquid cooled battery rack pre-installed and a plug and play interface for auxiliary power supply, communication, and DC connection, which can be installed as a ...

With advanced liquid-cooling technology, it ensures optimal battery performance and longevity. The system is equipped with a smart monitoring and control platform that allows for real-time ...

The "all-in-one" design integrates batteries, BMS, liquid cooling system, heat management
