"It connects our communities to stable, clean power and integrates GBAO into Tajikistan's broader national and cross-border grids." The commissioned and upcoming ...

The reconnection project, supported by a \$15 million grant from the Asian Development Bank (ADB), aims to fully reintegrate Tajikistan's power system with the Central ...

This project allows upstream countries like Tajikistan to expand their energy generation capacity, increase energy exports, and address seasonal energy shortages.

Investing in energy storage technologies, such as batteries and pumped hydro storage, could also help manage seasonal variations in supply and increase grid reliability.
