This inland vessel, jointly developed by Dutch renewable energy company Wattlab and Germany's HGK Shipping, has been hailed as a "solar-powered marvel in the shipping ...

The container battery utilizes 700-Ah lithium iron phosphate (LiFePO₄) cells in a liquid-cooled 1,500 to 2,000-volt configuration. Despite its massive 8-MWh capacity, the ...

Florida Power & Light Company (FPL) announced that crews installed the first battery storage components at the FPL Manatee Energy Storage Center, which will be the ...

Researchers developed the world's first inland shipping vessel that harnesses both solar power and generator power.

Envision Energy announced an 8-MWh, grid-scale battery that fits in a 20-ft (6-m) shipping container this week while at the third Electrical Energy Storage Alliance (EESA) ...

CATL describes TENER as the world's first mass-producible energy storage system with zero degradation in the first five years of use.

The world's first hybrid solar cargo ship has just launched in Germany, marking a major milestone for sustainable shipping.

World's first 8 MWh grid-scale battery in 20-foot container unveiled by Envision

The container battery utilizes 700-Ah lithium iron phosphate (LiFePO₄) cells in a liquid-cooled 1,500 to 2,000-volt configuration. ...

The world's first solar container battery
