These success stories highlight the transformative potential of shipping container schools and underscore their viability as a sustainable solution to global educational challenges.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

If the FIT really phases out in the future, the development of solar power in Viet Nam might be slowed down, especially for the group of public buildings and public schools which have ...

World Vision is working with seven schools in this district, where the poverty rate is more than 14.5%, to improve their learning environment through ...

Children and teachers at Khe Long 3, a Mo Vàng Kindergarten building in Yên Bái Province, show off a rooftop solar power system funded by SolarBK Group, Thien Tâm Fund ...

In Vietnam's mountainous Ha Giang Province, solar containers powered schools where it was nearly impossible to stretch the grid. Teachers reported improved attendance, as ...

Our line of solar transportable power units (TMSPDC® Power AnyWhere Any Time®) provides stand-alone photovoltaic power. These portable units supply AC power just about anywhere ...

Off Grid Solar container units guarantee security and reliability and allow the engineering team to complete installations in a few days rather than ...
