What is the cost of unused energy in Uruguay?

In Uruguay, unused energy sometimes costs the utility as much as \$90 million a year according to officials. However, this has allowed them to stabilize the grid and achieve a significant milestone in renewable energy integration.

Who makes the most electric cars in Uruguay?

Chinese brands like BYD, JAC and Omoda accounted for about 90% of the approximately 11,000 battery electric cars and SUVs sold in Uruguay this year. BYD's popular Seagull model, at just under \$20,000, is similarly priced to four-door hatchbacks with gas-powered engines.

Are EVs legal in Uruguay?

Known for its posh beaches and predictable politics, Uruguay exempts EVs from a 23% import duty and a double-digit excise tax on passenger vehicles. Gasoline costing about \$7.40 per gallon and a growing network of charging stations nationwide have also aided EV adoption in this country of 3.5 million people wedged between Brazil and Argentina.
