Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

By harnessing the sun's energy, solar power systems provide a reliable, cost-effective, and environmentally friendly solution to meet the energy needs of shipping container homes.

If you're looking for the simplest and easiest way to build a reliable, high quality off-grid solar system that can power a container or ...

With 8 kWh of stored energy and nearly 1,000W of real-world power in direct sun (and often 600-800W in less-than-ideal conditions), this is a seriously powerful system for just ...

This solution can provide power to remote areas, construction sites and emergency disaster areas, achieving sustainable energy autonomy without relying on traditional grids.

The solar package uses energy generated by the sun to power shipping container. Call our solar power specialists at (877) 616-2046 to summarize the power consumption of your devices or ...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
