Which power inverter brand is right for You?

Read on to find a power inverter brand that suits your lifestyle and power requirements. The BELTTT 2000W Pure Sine Wave Inverter is ideal for anyone who needs a reliable and efficient power source on the go, such as RV owners, truck drivers, outdoor enthusiasts, and solar power users.

Which Power Inverter should I buy for my RV?

TL;DR: The Ampeak works with everything from cellphones and digital cameras to floodlights and microwaves. If you're looking for a portable power inverter to use on your next RV trip, the AMPEAK 2,000-watt power inverter could be the perfect pick.

What makes a good power inverter?

If you need a power inverter that can withstand the elements, look for a durable device with features like an aluminum casing. Many inverters also have extra protection features to prevent overvoltage or overloaded devices with resistance to overloads, short circuits, and high temperatures.

How much power does a power inverter use?

Power inverters vary widely in wattage, from 300W to 3,000W and up. Some can even generate surge power as high as 6,000W. Most power inverters have two standard AC outlets for various electronic devices. Other models offer additional AC outlets and often USB ports to charge all of your devices--from laptops to fans and flood lights.
